**Резюме.** Данная статья посвящена исследованию того, как функционируют идеологии в постсоветских государствах, созданные после травматического советского опыта с его идеологической монополией. Это исследование показывает, как Украинский институт национальной памяти пытался возродить советскую идеологическую практику в поиске внутреннего Иного в Украине после Евромайдана. Автор доказывает, что политика Института была связана с попыткой установления идеологической монополии, которая предоставляла бы правящим элитам контроль над коллективной памятью многонационального народа Украины и его идентичностями.

**Ключевые слова:** коллективная память, идеологическая монополия, институт национальной памяти, постсоветское государство
