Аннотация. Для выяснения восприятия Холокоста жителями г. Ровно проанализировано соотношение политических сил в регионе конца 1980-х – начала 1990-х гг., тематику публикаций общественно-политических изданий тех лет, определены тенденции трактовки событий Второй мировой войны представителями местных политических элит. Авторы показывают, что эти процессы содействовали реанимации памяти ровенчан о Холокосте. В тоже время, приоритетной для них оказалась задача ликвидация символов советского тоталитаризма и глорификация Украинской Повстанческой Армии. На этом фоне геноцид евреев длительное время оставался маргинальной сюжетной линией в символическом пространстве Ровно. Только в последние годы в городе появились маркеры, которые повествуют о Холокосте. Эти средства напоминания свидетельствуют об отказе местных политических элит от эксклюзивной модели коллективной памяти.

Ключевые слова: память, Холокост, местные политические элиты, символическое пространство, Ровно
